

#WITHOUTNEWS

On May 4, the Freedom Forum adds to its Journalists Memorial the names of 11 journalists who died while reporting the news in 2019.

They represent the 25 journalists who died last year, according to the Committee to Protect Journalists. Ten of the 25 were murdered to silence their work. Others covered wars or dangerous assignments.

Join us in raising awareness of the threats to journalists around the world so we never have to imagine a world #WithoutNews.
